Immunochemical detection of glucocorticoid receptors within rat cochlear and vestibular tissues (60) 199
Thurm, U., see Reuter, G. (60) 236
Tono, T. and Morizono, T.
Low-frequency modulation of compound action potential in experimental perilymphatic fistula and endolymphatic hydrops (60) 27

Walsh, E.J., Gorga, M. and McGee, J.A.
Comparisons of the development of auditory brainstem response latencies between cats and humans (60) 53
Wataya, H., see Suzuki, H. (60) 45
Webb, W.W., see Denk, W. (60) 89
Yamamoto, A., see Kawasaki, K. (60) 64
Ylikoski, J., Pirvola, U. and Lehtonen, E.
Distribution of F-actin and fodrin in the hair cells of the guinea pig cochlea as revealed by confocal fluorescence microscopy (60) 80

Zeng, F.-G. and Shannon, R.V.
Loudness balance between electric and acoustic stimulation (60) 231
Zenner, H.-P., see Reuter, G. (60) 236
Zenner, H.P., see Gitter, A.H. (60) 13
Zhou, N. and Parks, T.N.
γ-D-glutamylaminomethyl sulfonic acid (GAMS) distinguishes subtypes of glutamate receptor in the chick cochlear nucleus (nuc. magnocellularis) (60) 20

Subject Index

Acoustic click
Grassfrog; Interaural time difference; Sound localization; System identification; Torus semicircularis (Melssen, W.J. (60) 178)

Acoustic processing
Temporal analysis; Pitch; Neuronal mechanisms (Langner, G. (60) 115)

Acoustic trauma
Cochlea; Stereocilia; Noise-induced hearing loss; Hamster (Kaltenbach, J.A. (60) 205)

Active process
Sensorineural hearing loss; Additivity; Receptor current (Patuzzi, R. (60) 165)

Threshold losses; Acute noise exposures; Additivity (Rajan, R. (60) 216)

Acute noise exposures
Threshold losses; Additivity; Active process (Rajan, R. (60) 216)

Additivity
Sensorineural hearing loss; Active process; Receptor current (Patuzzi, R. (60) 165)

Threshold losses; Acute noise exposures; Active process (Rajan, R. (60) 216)

Amplitude
Auditory brainstem; Tonal stimuli; Rate; Latency; Rat (Newton, E.H. (60) 73)

K-ATPase
Quantitative immunogold electronmicroscopy; Na; Rat; Vestibular apparatus (Kawasaki, K. (60) 64)

Auditory
Axons; Development; Cochlear nerve; Cochlear nucleus; Tonotopic; Tuning (Schweitzer, L. (60) 34)

Auditory brainstem
Tonal stimuli; Rate; Latency; Amplitude; Rat (Newton, E.H. (60) 73)

Auditory brainstem response
Menstrual cycle; Estrogen effect; Oral contraceptives (Elkind-Hirsch, K.E. (60) 143)

Auditory evoked brainstem response
Evoked potential; Human; Cat; Development (Walsh, E.J. (60) 53)

Auditory pathway
Cochlear efferents; Bilateral projection; Birds (Schwarz, D.W.F. (60) 110)

Auditory system
Kainic acid; Domoic acid; Quisqualic acid; Quinoxalinediones (Zhou, N. (60) 20)

Avian
Cochlea; Protein synthesis; Quantitation (Oberholtzer, J.C. (60) 103)

Axons
Auditory; Development; Cochlear nerve; Cochlear nucleus; Tonotopic; Tuning (Schweitzer, L. (60) 34)

$2f_1-f_2$: Bat
Cochlea; Distortion products; Salicylate (Kössl, M. (60) 156)

Bilateral projection
Cochlear efferents; Auditory pathway; Birds (Schwarz, D.W.F. (60) 110)

Birds
Cochlear efferents; Bilateral projection; Auditory pathway (Schwarz, D.W.F. (60) 110)

Carbohydrate composition
Tectorial membrane; Otoconial membrane; High-performance anion-exchange chromatography; Glycopeptidase F; Endo-β-galactosidase (Suzuki, H. (60) 45)

Cat
Evoked potential; Auditory evoked brainstem response; Human; Development (Walsh, E.J. (60) 53)

Cell membrane potential difference
Cochlea; Ion channels; Outer hair cell; Potassium permeability (Gitter, A.H. (60) 13)

Cochlea
Hair cell; Nonlinearity; Two-tone suppression (Cheatham, M.A. (60) 1)

Cell membrane potential difference; Ion channels; Outer hair cell; Potassium permeability (Gitter, A.H. (60) 13)

Avian; Protein synthesis; Quantitation (Oberholtzer, J.C. (60) 103)

Distortion products; $2f_1-f_2$: Bat; Salicylate (Kössl, M. (60) 156)

Stereocilia; Noise-induced hearing loss; Acoustic trauma; Hamster (Kaltenbach, J.A. (60) 205)

Cochlear amplifier
Frequency selectivity; Speech discrimination; Hearing loss (Reuter, G. (60) 236)

Cochlear efferents
Bilateral projection; Auditory pathway; Birds (Schwarz, D.W.F. (60) 110)

Cochlear nerve
Auditory; Axons; Development; Cochlear nucleus; Tonotopic; Tuning (Schweitzer, L. (60) 34)

Cochlear nucleus
Auditory; Axons; Development; Cochlear nerve; Tonotopic; Tuning (Schweitzer, L. (60) 34)

Compound action potential
Perilymphatic fistula; Endolymphatic hydrops; Low-frequency bias, Guinea pig (Tono, T. (60) 27)

Cytoskeleton
Immunohistochemistry; Hair cells; Surface specimens (Ylikoski, J. (60) 80)

Development
Auditory; Axons; Cochlear nerve; Cochlear nucleus; Tonotopic; Tuning (Schweitzer, L. (60) 34)

Evoked potential; Auditory evoked brainstem response; Human; Cat (Walsh, E.J. (60) 53)

Distortion products
Cochlea; $2f_1-f_2$: Bat; Salicylate (Kössl, M. (60) 156)

Domoic acid
Kainic acid; Quisqualic acid; Quinoxalinediones; Auditory system (Zhou, N. (60) 20)

Electric stimulation
Loudness balance; Loudness function (Zeng, F.-G. (60) 231)

ELISA
Inner ear; Steroid receptor; Western blot (Ten Cate, W.J.F. (60) 199)

Endo-β-galactosidase
Tectorial membrane; Otoconial membrane; Carbohydrate composition; High-performance anion-exchange chromatography; Glycopeptidase F (Suzuki, H. (60) 45)

Endolymphatic hydrops
Perilymphatic fistula; Compound action potential; Low-frequency bias, Guinea pig (Tono, T. (60) 27)

Estrogen effect
Auditory brainstem response; Menstrual cycle; Oral contraceptives (Elkind-Hirsch, K.E. (60) 143)

Evoked potential
Auditory evoked brainstem response; Human; Cat; Development (Walsh, E.J. (60) 53)

Frequency selectivity
Cochlear amplifier; Speech discrimination; Hearing loss (Reuter, G. (60) 236)

Glycopeptidase F
Tectorial membrane; Otoconial membrane; Carbohydrate composition; High-performance anion-exchange chromatography; Endo-β-galactosidase (Suzuki, H. (60) 45)

Grassfrog
Acoustic click; Interaural time difference; Sound localization; System identification; Torus semicircularis (Melssen, W.J. (60) 178)

Hair bundle
Thermal noise; Hearing (Denk, W. (60) 89)

Hair cell
Cochlea; Nonlinearity; Two-tone suppression (Cheatham, M.A. (60) 1)

Hair cells
Immunohistochemistry; Cytoskeleton; Surface specimens (Ylikoski, J. (60) 80)

Hamster
Cochlea; Stereocilia; Noise-induced hearing loss; Acoustic trauma (Kaltenbach, J.A. (60) 205)

Hearing
Hair bundle; Thermal noise (Denk, W. (60) 89)

Hearing loss
Cochlear amplifier; Frequency selectivity; Speech discrimination (Reuter, G. (60) 236)

High-performance anion-exchange chromatography
Tectorial membrane; Otoconial membrane; Carbohydrate composition; Glycopeptidase F; Endo-β-galactosidase (Suzuki, H. (60) 45)

Human
Evoked potential; Auditory evoked brainstem response; Cat; Development (Walsh, E.J. (60) 53)

Immunohistochemistry
Hair cells; Cytoskeleton; Surface specimens (Ylikoski, J. (60) 80)

Inner ear
Steroid receptor; ELISA; Western blot (Ten Cate, W.J.F. (60) 199)

Interaural time difference
Acoustic click; Grassfrog; Sound localization; System identification; Torus semicircularis (Melssen, W.J. (60) 178)

Ion channels
Cell membrane potential difference; Cochlea; Outer hair cell; Potassium permeability (Gitter, A.H. (60) 13)

Kainic acid
Domoic acid; Quisqualic acid; Quinoxalinediones; Auditory system (Zhou, N. (60) 20)

Latency
Auditory brainstem; Tonal stimuli; Rate; Amplitude; Rat (Newton, E.H. (60) 73)

Loudness balance
Electric stimulation; Loudness function (Zeng, F.-G. (60) 231)

Loudness function
Loudness balance; Electric stimulation (Zeng, F.-G. (60) 231)

Low-frequency bias, Guinea pig
Perilymphatic fistula; Endolymphatic hydrops; Compound action potential (Tono, T. (60) 27)

Menstrual cycle
Auditory brainstem response; Estrogen effect; Oral contraceptives (Elkind-Hirsch, K.E. (60) 143)

Motility
Noise induced hearing loss; Temporary threshold shift; Susceptibility; Training (Miyakita, T. (60) 149)

Na
Quantitative immunogold electronmicroscopy; K-ATPase; Rat; Vestibular apparatus (Kawasaki, K. (60) 64)

Neuronal mechanisms
Acoustic processing; Temporal analysis; Pitch (Langner, G. (60) 115)

Noise induced hearing loss
Temporary threshold shift; Susceptibility; Training; Motility (Miyakita, T. (60) 149)

Noise-induced hearing loss
Cochlea; Stereocilia; Acoustic trauma; Hamster (Kaltenbach, J.A. (60) 205)

Nonlinearity
Cochlea; Hair cell; Two-tone suppression (Cheatham, M.A. (60) 1)

Oral contraceptives
Auditory brainstem response; Menstrual cycle; Estrogen effect (Elkind-Hirsch, K.E. (60) 143)

Otoconial membrane
Tectorial membrane; Carbohydrate composition; High-performance anion-exchange chromatography; Glycopeptidase F; Endo-β-galactosidase (Suzuki, H. (60) 45)

Outer hair cell
Cell membrane potential difference; Cochlea; Ion channels; Potassium permeability (Gitter, A.H. (60) 13)

Perilymphatic fistula
Endolymphatic hydrops; Compound action potential; Low-frequency bias, Guinea pig (Tono, T. (60) 27)

Pitch
Acoustic processing; Temporal analysis; Neuronal mechanisms (Langner, G. (60) 115)

Potassium permeability
Cell membrane potential difference; Cochlea; Ion channels; Outer hair cell (Gitter, A.H. (60) 13)

Protein synthesis
Avian; Cochlea; Quantitation (Oberholtzer, J.C. (60) 103)

Quantitation
Avian; Cochlea; Protein synthesis (Oberholtzer, J.C. (60) 103)

Quantitative immunogold electronmicroscopy
Na; K-ATPase; Rat; Vestibular apparatus (Kawasaki, K. (60) 64)

Quinoxalinediones
Kainic acid; Domoic acid; Quisqualic acid; Auditory system (Zhou, N. (60) 20)

Quisqualic acid
Kainic acid; Domoic acid; Quinoxalinediones; Auditory system (Zhou, N. (60) 20)

Rat
Quantitative immunogold electronmicroscopy; Na; K-ATPase; Vestibular apparatus (Kawasaki, K. (60) 64)

Auditory brainstem; Tonal stimuli; Rate; Latency; Amplitude (Newton, E.H. (60) 73)

Rate
Auditory brainstem; Tonal stimuli; Latency; Amplitude; Rat (Newton, E.H. (60) 73)

Receptor current
Sensorineural hearing loss; Additivity; Active process (Patuzzi, R. (60) 165)

Salicylate
Cochlea; Distortion products; $2f_1-f_2$: Bat (Kössl, M. (60) 156)

Sensorineural hearing loss
Additivity; Active process; Receptor current (Patuzzi, R. (60) 165)

Sound localization
Acoustic click; Grassfrog; Interaural time difference; System identification; Torus semicircularis (Melssen, W.J. (60) 178)

Speech discrimination
Cochlear amplifier; Frequency selectivity; Hearing loss (Reuter, G. (60) 236)

Stereocilia
Cochlea; Noise-induced hearing loss; Acoustic trauma; Hamster (Kaltenbach, J.A. (60) 205)

Steroid receptor
Inner ear; ELISA; Western blot (Ten Cate, W.J.F. (60) 199)

Surface specimens
Immunohistochemistry; Hair cells; Cytoskeleton (Ylikoski, J. (60) 80)

Susceptibility
Noise induced hearing loss; Temporary threshold shift; Training; Motility (Miyakita, T. (60) 149)

System identification
Acoustic click; Grassfrog; Interaural time difference; Sound localization; Torus semicircularis (Melssen, W.J. (60) 178)

Tectorial membrane
Otoconial membrane; Carbohydrate composition; High-performance anion-exchange chromatography; Glycopeptidase F; Endo-β-galactosidase (Suzuki, H. (60) 45)

Temporal analysis
Acoustic processing; Pitch; Neuronal mechanisms (Langner, G. (60) 115)

Temporary threshold shift
Noise induced hearing loss; Susceptibility; Training; Motility (Miyakita, T. (60) 149)

Thermal noise
Hair bundle; Hearing (Denk, W. (60) 89)

Threshold losses
Acute noise exposures; Additivity; Active process (Rajan, R. (60) 216)

Tonal stimuli
Auditory brainstem; Rate; Latency; Amplitude; Rat (Newton, E.H. (60) 73)

Tonotopic
Auditory; Axons; Development; Cochlear nerve; Cochlear nucleus; Tuning (Schweitzer, L. (60) 34)

Torus semicircularis
Acoustic click; Grassfrog; Interaural time difference; Sound localization; System identification (Melssen, W.J. (60) 178)

Training
Noise induced hearing loss; Temporary threshold shift; Susceptibility; Motility (Miyakita, T. (60) 149)

Tuning
Auditory; Axons; Development; Cochlear nerve; Cochlear nucleus; Tonotopic (Schweitzer, L. (60) 34)

Two-tone suppression
Cochlea; Hair cell; Nonlinearity (Cheatham, M.A. (60) 1)

Vestibular apparatus
Quantitative immunogold electronmicroscopy; Na; K-ATPase; Rat (Kawasaki, K. (60) 64)

Western blot
Inner ear; Steroid receptor; ELISA (Ten Cate, W.J.F. (60) 199)
